

ATA

Christophe Delcourt

ATA dining table is an attractive piece with its smart combination of lacquer and wood. The convex-shaped tabletop features wood on the upper part and lacquer underneath. The overall luxurious identity of this piece is made impressive by the detailed joinery of the lacquered legs and the solid wood support. The finish of this table can be personalized with various wood and lacquer choices, to better fit the identity of a space.

STRUCTURE

Top in veneer on particles board, base and legs in solid wood, back of table top in lacquered MDF wood

FINISHING

Top and rails in walnut or stained oak, back of table top and legs in lacquer
