

FOND

Frank Chou

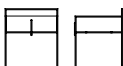

The FOND bedside table showcases a minimal metal frame paired with a thicker wooden tabletop that hides a drawer. The polished brass handle recalls the delicate frame, for a well-balanced design. The piece, an exquisite combination of wood and copper finish, adds elegance and airiness to the bedroom.

STRUCTURE

Top in veneer on particles board, base and legs in metal

FINISHING

Top in walnut or stained oak, base and legs in stainless steel, base in brassy stainless steel
