

JOUR

Christophe Delcourt

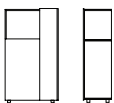

JOUR cabinet system abandons the traditional form and structure of cabinets with a unique twill oak body. The combinations of a black, high gloss finish with walnut doors make it appear fashionable, lively, and orderly. Handles are hidden in the edges of each door panel. The JOUR system contains a floor cabinet, side cabinet, and tall cabinet. It's an outstanding and functional cabinet system for any living space.

STRUCTURE

Structure in diagonal veneer on particles board except short door and the inside of the hidden space in straight veneer, and high door in lacquered MDF; or whole structure in straight veneer on particles board except high door in lacquered MDF...

FINISHING

Option1: Outside and inside of structure in diagonal black oak, short door in natural walnut and high door in lacquer, and inside of hidden space in straight grain black oak. Option2: Whole piece in natural walnut, or coffee oak, or titanium grey oak, or brushed white oak, except high door in lacquer
